

Technical characteristics / Carding

	Worsted card	Semi-worsted card	Card for hard fibres
Uses	Wool Mohair Silk noils Synthetic fibres	Natural fibres Synthetic fibres	Flax tow Bast fibres
Main swift	Ø 1500 mm	Ø 1500 mm	Ø 1500 mm
Card feeder	Continuous volumetric feeder	Continuous volumetric feeder	Continuous volumetric feeder + bale opener specific to hard fibres
Delivery	Automatic with or without reducing head Ø 700 x 1000 mm, Ø 1000 x 1200 mm or Ø 1200 x 1400 mm	Automatic with or without reducing head Ø 700 x 1000 mm, Ø 1000 x 1200 mm or Ø 1200 x 1400 mm	Automatic with or without reducing head Ø 700 x 1000 mm, Ø 1000 x 1200 mm
Working width	2.50 m – 3.50 m depending on processed material and aimed production	2.50 m – 3.50 m depending on processed material and aimed production	2.50 m depending on processed material and aimed production
Suction cleaning network	Built-in, including the fan	Built-in, including the fan	Built-in, including the fan

*All solutions and technical data subject to change. Performance depends on running configurations, applications and fibres.
